

Evans, Tartar Appointed Associate Vice-Presidents

Brian L. Evans, Department of History, and John Tartar, Department of Computing Science, have been appointed Associate Vice-President (International Affairs) and Associate Vice-President (Information Systems), respectively. The appointments are effective immediately.

An alumnus of this University, Dr. Evans received his BA (History) in 1954, and his PhD from the University of London School of Oriental and African Studies in 1961. He taught Asian History for the University of Maryland's Overseas Program in London (1958-59), joined the University of Alberta as an Assistant Professor in 1961, was appointed Associate Professor in 1967, and full Professor in 1973.

From 1958 to 1965, Dr. Evans was an Administrative Officer and Conference Administrator for NATO Parliamentarians' Conferences in London, Paris, Washington, and New York, and was an Administrative Officer and Consultant with the Atlantic Congress in London in 1959. He was also Sinologist-in-residence and Counsellor (Cultural Affairs) for the Canadian Government's Department of External Affairs, Canadian Embassy, Beijing, People's Republic of China, 1974.

Brian Evans

The principal responsibility of the Vice-President (International Affairs) will be to assist in the development of such affairs and to oversee the administration of major projects, as well as to provide ongoing support and information services to faculty with interests in international areas. This office will be the first contact for international agencies and visitors to the campus.

Dr. Tartar is a native of Oklahoma and received his BSc (Electrical Engineering, 1959) and his

MSc (1960) from Oklahoma State University. His PhD in Electrical Engineering was completed in 1967 at Arizona State University. During 1959-60, he taught Electrical Engineering at Oklahoma State University, and occupied the same position at Arizona State University, 1960-61. He became Research Director for Rockwell Corporation in Anaheim, California, in 1961.

Dr. Tartar joined the staff at this University as an Associate Professor in the Computing Science Department in 1969. Six years later, he spent his study leave as Visiting

Professor at the University of California in Berkeley. He returned as Professor and Chairman of the Department of Computing Science, a position he held until 1981. Since then, he has been a professor in the department.

As Associate Vice-President (Information Systems), Dr. Tartar will hold responsibility for the coordination of information activities, including those of the Library, Computing Services, the Office of Administrative Systems, Printing Services, the University Press, and University Archives. □

Applications of Biotechnology to Western Canadian Agriculture and Forestry Basis of Symposium

Biotechnology is defined as "the study of the relationships between human beings and machines, especially in terms of physiological, psychological and technological re-

quirements." Applied to Western Canadian Agriculture and Forestry, one may discover its role in, for example, the improvement of canola and mustard crops. This is just one of the topics that will be addressed at the first Canadian Pacific Symposium on Applications of Biotechnology to Western Canadian Agriculture and Forestry. The symposium will take place 26 and 27 September in Bernard Snell Hall, W.C. Mackenzie Health Sciences Centre.

The list of speakers includes Stephen Acres, Veterinary Infectious Disease Organization, Saskatoon ("Applications of Biotechnology to Animal Health and Productivity"); Robert Church, Medical Biochemistry, University of Calgary ("Embryo Manipulation and Gene Transfer in Animal Production"); Walter Beaversdorff, Department of Crop Science, University of Guelph ("Applications of New Techniques for Economic Plant Improvement"); and Vickie Baracos and James Thompson, Department of Animal Science at our

University, ("New Insights into the Regulations of Skeletal Muscle Growth").

The symposium is being sponsored largely by Canadian Pacific,

Mind the Road Signs

Paving and concrete work on 90 Avenue between 111 and 110 Streets in Garneau began on 30 August. As well, the road north of Corbett Hall between 114 and 112 Streets will be repaved.

At certain times traffic will be rerouted around these two construction sites due to road closure.

Wayne McCutcheon of Physical Plant's Grounds Division advises members of the University community to "check your main building notice boards for further information relating to traffic routes."

The two projects are scheduled to be completed by 30 September. □

and registration can be arranged through John Hoddinott, Department of Botany. The registration fee of \$30 includes coffee breaks, the conference banquet, and a special issue of the *University's Agriculture and Forestry Bulletin* which will contain short summaries of the scientific presentations. The registration deadline is 20 September. □

University to Host Leeds Delegation

On 17 September, the University will play host to a group of scientists and engineers from the University of Leeds. The purpose of their visit is to gather information about research being conducted at Canadian universities, and to ascertain whether Canadian universities would be interested in shared research projects. Such a proposal may involve periodical short-term visits by academic staff members, the possibility of shared publications, and the exchange of post-doctoral fellows.

The group is also interested in discussing the possible exchange of students, particularly at a graduate level, and wishes to make more widely known the provision made for overseas students by various award schemes of the British government, and the University of Leeds.

Our guests have indicated that they will "listen carefully to everything Canadian colleagues wish to tell."

The visitors are: Duncan Dowson, Pro-Vice-Chancellor; Sydney Dugdale, Chairman of the Committee of Canadian Studies (and a former member of the the National Research Council of Canada); D. Lee, Chairman of the Faculty Board of Science; Peter Lawrence, former Chairman of the Faculty Board of Engineering and of the Research Policy Committee of the University; David Crighton, Chairman of the Research Policy Committee and Professor-Elect of Applied Mathematics, University of Cambridge; and David Dilks, former Chairman of the Canadian Studies Committee and of the Research Policy Committee.

The Universities Coordinating Council Office (432-3481) is arranging all appointments. The group will meet members of the University community at University House. □

Walter Johns a Respected Figure at University of Calgary

The death earlier this summer of Walter H. Johns deserves some comment in the *Gazette*.

Walter was a key figure in the development of universities in Alberta and witnessed (and substantially contributed to) the changes which gave us essentially what we have now. He was a Professor of Classics at the U of A when that was the one and only university in Alberta. He served as Dean of Arts and Science for some years, and in 1957 was appointed the first ever Vice-President. A year or so later, following the resignation of Andrew Stewart, he was appointed President. He served in that office until 1969 and thus oversaw the evolution of the University of Calgary from the status of a "Branch" through the "University of Alberta in Calgary", "The University of Alberta, Calgary", "The University of Alberta at Calgary", to "The University of Calgary".

Walter was appointed to his position under the old Act under which Presidents were appointed by "The Lieutenant Governor in Council", which meant they were appointed by the government of the day. The change to an appointment by the Board of Governors on the recommendation of a committee was seen as a move to give the University community a greater voice in its own government, but ironically the older Presidents were much more "of the Faculty" than is the case today. This does not necessarily reflect the attitudes of present day incumbents, but rather that the nature of the job has changed.

At his installation Walter said that he had known all his predecessors in office, and that he was likely to be the last who would be able to make that claim. I am sure that was correct. Upon appointment as President he held the position for some time with no Vice-President, and will undoubtedly be the last to do that also.

At the time of his appointment as Vice-President the period of enormous expansion of university education was just beginning (the total provincial student body was around 5,000) and in the early '60s Walter saw big changes forthcoming. He established a long-range planning committee of senior people, which he chaired himself, and which attempted to chart the way ahead. Walter wanted the development of university education in the province to be modelled on the California system (and some

other States, notably New York) in which there was one state (provincial) university with several campuses (e.g., UCLA, UC, Davis, etc.). However, in Alberta, historical precedent made Edmonton the University, with Calgary a sort of colonial development, which did not sit well with the people of Calgary. This meant that we found ourselves at odds with Walter Johns until we became a legally autonomous body in 1966.

Looking back, some of us (myself included) tend to feel that, had it been properly executed, Walter Johns' model might have served us better than the one we ultimately achieved, because a single university in the province might well have carried more political weight than the several we now have. However, history cannot be changed.

There can be no doubt that Walter's tireless contributions to university education in this province (and that includes Calgary) were tremendous, and worthy of his appointment as an Officer of the Order of Canada, of which he was very proud. However, my fondest memories of him relate to his insistence on being inseparable from the faculty and students, and he used his administrative position to make sure he retained contact. At Convocation he used to check his program carefully as students were presented, and singled them out afterwards to talk to them. On one

occasion of which I know (there were doubtless others), a new male student got lost and finished up in his outside office when he was talking to his secretary. He took the girl across campus to her lecture room. He used, personally, to read travel claims—and not just superficially. He once commented that I had charged only 75 cents for breakfast (in 1960!). At one time he argued against the raising of his salary. He "did not need it." However, we believed it had to be comparable with more senior civil servants, and reflect the status of his position.

Walter spent part of his retirement writing a fairly detailed history of the University of Alberta, which includes some of the background for the development for Calgary. This must not be allowed to belittle his own contribution to the U of A which was one of the most significant, but all this time his personal character could not be eclipsed. He was a man who truly lived up to Kipling's challenge in his poem "If" and commanded the respect and friendship of all, even when you disagreed profoundly. His death has lost for us a pioneer even though his work was comparatively recent.* □

This recollection of Dr. Johns is by C.E. Challice, Department of Physics, University of Calgary. It was published in The University of Calgary Gazette on 28 August.

J. Tuzo Wilson to Deliver First ARC Lecture

The Director General of the Ontario Science Centre, J. Tuzo Wilson, will be the first speaker in the 1985 Alberta Research Council (ARC) 75th Anniversary Lecture series. Dr. Wilson's lecture will take place Tuesday, 24 September, at 4 p.m. in L-1 Humanities Centre.

"The Present Day Alchemy: Changes the Gold of Science into Lead" will be Dr. Wilson's topic. He will discuss how the teaching of science is becoming "mutilated" and how, in many cases, the fun has been taken out of the study of

it. An acclaimed geophysicist, Dr. Wilson will provide personal and professional insights into the teaching of science.

There will be two more lectures in the series: Douglas Wright, President of the University of Waterloo, will deliver the Robert M. Hardy Lectureship in Engineering or October, and Nobel prizewinner Norman Borlaug will present the Nathaniel H. Grace Lectureship in Agriculture on 22 October. *Folio* will publish further details on the lectures in subsequent issues. □

Physical Education and Sport Studies, ACCESS NETWORK Combine on Fitness Series

The Fitness Unit on campus is a provincial resource and proof position that can be found in "Fitness: Just the Facts," a series developed by the Department of Physical Education and Sport Studies and the ACCESS NETWORK.

Art Quinney has spent much of the summer compiling material not only on physical activity but on the many factors surrounding it, for example, nutrition, clothing and footwear. He says that the series will address immediate kinds of inter-

ests, for example, fitness training, fitness medicine and how to access it, heart health, fitness psychology (everything from runner's high to fitness addiction to stress reduction through exercise) and fitness fads.

The ace in the hole is the phone-in capability. The viewing audience can speak with Dr. Quinney and/or the guest expert for that particular program. The University, the City of Edmonton, the University of Alberta Hospitals, the Government of Alberta, Mount Royal College and

the YMCA are supplying the expert commentators.

"Fitness: Just the Facts" will start on 19 September. Each of the 13 half hour programs will be shown on consecutive Thursdays at 7 p.m.

A pilot series of six programs was shown on ACCESS last year and all indications were that viewers would welcome a series that would negotiate the fitness gamut. "Fitness: Just the Facts" finds ACCESS handling production costs and Physical Education and Sport Studies

footing content costs. Alberta Recreation and Parks and Alberta Social Services and Community Health are also sponsoring the series.

"Fit Tips", public service announcements put together by Dr. Quinney, will start this month on ACCESS. They will also be made available to other television networks in Alberta. □

Folio Deadlines for Coming Events

9 a.m. three weeks in advance of the desired publication date is the new deadline for submission of notices concerning coming events. This deadline has become necessary as the result of continued late submission of information to the Office of Public Affairs by event organizers across campus. All too often events (lectures, seminars, special offerings, etc.) are publicized in *Folio* so close to their dates that people's schedules are already fixed or the events had already taken place by the time *Folio* is received. This results in embarrassment for event organizers as much as it does for Public Affairs, *Folio*'s publisher.

The three-week deadline will be adhered to as strictly as possible. As a matter of course, however, changes of place, date, time or speaker will be publicized even if received after the deadline.

Publication	Deadline
26 September	5 September
3 October	12 September
10 October	19 September
17 October	26 September
24 October	3 October
31 October	10 October
7 November	17 October
14 November	24 October
21 November	3 October
28 November	7 November
5 December	14 November
12 December	21 November
19 December	28 November

be aware that the deadlines listed above are the absolute latest dates for submission of information. Events organizers should really submit written information well in advance of these dates. □

In August, the largest biological conference ever held on campus, the Fourth International Theriological Congress, was attended by more than 1,000 scientists from more than 50 countries. When it was over, Vladimir Sokolov (centre), Director of the Institute of Evolutionary Morphology and Ecology of Animals, USSR Academy of Sciences, presented to David Jones (left), for the Library, 30 texts by prominent Russian authors in the field of theriology. Earlier in the week, at the Ring House Gallery, William Fuller (right) organizer of this highly successful conference, accepted a grant of \$4,000 in support of the Fourth ITC from the Recreation, Parks and Wildlife Foundation.

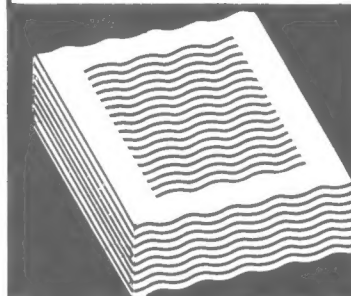

Replenishment of GFC Standing Committees

The GFC Nominating Committee is seeking nominees to fill vacancies on the following committees:

Academic Appeals Committee	three faculty members, two undergraduate students and one graduate student to serve as alternate members
Library Committee	two members of the academic staff
Special Sessions	one member of the academic staff
Committee for the Improvement of Teaching and Learning	one faculty member
Undergraduate Teaching Awards Committee	two faculty members
Writing Competence Committee	one faculty member
University Professors Selection Committee	one faculty member
Faculty Tenure Committee Panel	one faculty member

Would those who have suggestions for nominations, or who are interested in serving on any of the above committees, contact Mrs. Plaskitt, 2-5 University Hall (432-4715), no later than noon on 9 September. It would be appreciated if a very brief vita could accompany any nomination.

Currents

Campus Reviews

As part of the process of carrying out systematic reviews under the guidance of the President's Advisory Committee on Campus Reviews (PACCR), the Departments of History and English and Printing Services are completing the self-study phase of the review process. The other major phase of the process is the site visit and assessment by the Unit Review Committee. In preparation for this second phase, PACCR invites written comment prior to 23 September 1985. Submissions are for the use of the Unit Review Committee and will be held in confidence by the members of that committee.

Submissions should be sent to: Mrs. L. Pearson, PACCR Office, W4-13 Chemistry Building, Attention: The Unit Review Committee.

Faculty Women's Club

The Faculty Women's Club's 52nd year of social activities will commence on 14 September with the Fall Membership Tea (Lister Hall, 1 to 4 p.m.).

The Club's membership includes women from all Faculties and wives of faculty members, administrative/professional officers, post-doctoral fellows and research associates.

More than 30 interest groups are sponsored by the Club.

The executive for 1985-86 includes Dorothy Alderman, President; V. Moskalyk, Vice-President and Interest Group Coordinator; Norma Wolowyk, Newsletter Editor; and Helen Neufeld, Social Chairman.

Faculty Badminton Club

Faculty Badminton Club, Education Gym, every Wednesday from 7:30 to 10 p.m., beginning 11 September. Frans, 464-9228.

President's Advisory Committee on Sexual Harassment Summary Annual Report for 1984-85

Focus for 1984-85

The President's Advisory Committee on Sexual Harassment was formed at the University of Alberta in 1982 to investigate written complaints of sexual harassment and to work with the four staff and student associations in establishing an educational campaign about sexual harassment. These two areas have been the focus of PACSH's work during 1984-85. Our brief report to the University community gives only the highlights of an active year's agenda. The report on cases is basically statistical in order to ensure confidentiality.

Educational Campaign

As part of PACSH's educational campaign, Leslie Bella, who chaired the committee for the past two years, discussed sexual harassment with a number of campus groups, including Deans' Council, President's Advisory Committee of Chairmen, Administrative Council, student residence groups, the Academic Women's Association, and Campus Security personnel. Requests for interviews from university and local print media have continued at a steady rate. This year, an increasing number of television and radio stations sought out Dr. Bella, including the CBC, CKUA, CJCA, CISN, CKST and CJSR.

To test student and staff awareness about sexual harassment, a survey of all staff, and of a representative sample of students, was

conducted on a Faculty-by-Faculty basis. Results show that most people know what is meant by the term "sexual harassment" (between 92 and 100 percent). Knowledge of PACSH's existence as an investigative body ranges from 35 to 88 percent (students) to 93 to 97 percent (staff). PACSH plans to increase the response rate by ensuring that all new and continuing students and staff receive copies of our new information brochure this summer and fall, either by direct mailing, during registration, or through their deans and department chairmen. Posters will again be displayed in high traffic areas of campus and in departmental office and coffee rooms. Publication of this summary annual report is another means of reaching the University community.

Cases

The 432-TALK telephone line enabled 14 people to seek advice about situations which might involve sexual harassment. Although callers can be put in touch with any committee member, most chose to meet initially with the person who chairs PACSH. Nine of these 14 enquiries about sexual harassment problems were, at the request of the complainants, handled without recourse to formal investigative hearings. Informal resolution of sexual harassment has, in fact, become a major part of PACSH's work. Many callers did not want to place a formal complaint, but did need to know the options open to

them regarding situations related to sexual harassment, including alternative ways to resolve the problem themselves.

Four written complaints reached the formal investigative stage. In two of the formal cases, some form of disciplinary action was recommended by PACSH and implemented by the President.

Recent allegations of sexual harassment were brought to the attention of the PACSH Chair and have been referred to the Vice-President (Academic) for action under article 12 (pages 33 to 36) of the Board-AAS:UA Agreement.

A wide variety of sexual harassment cases were handled in 1984-85 by PACSH or the PACSH Chair, and emanated from both individuals and groups. Some cases involved two people from the same peer group or association, such as student-student cases. In other complaints, members from two different sectors of the University community were involved, such as student-academic staff. Most complaints were from women about men. The majority of cases involved full-time staff or students, although some part-time or trust employees were either complainants or respondents. Some complaints were from men about women, and some same-sex harassment was reported. In short, complaints were received from every University community group about every University community group—no set pattern of complainant/respondent emerged.

PACSH's procedures for dealing with complaints have been under review since the committee was established in November of 1982. The original version of the procedures was endorsed by the four Associations—Students' Union, Graduate Students' Association, Non-Academic Staff Association, and Association of Academic Staff University of Alberta. Changes to the procedures have been recommended and adopted in each subsequent year. This year, the committee members who have chaired hearings—representing all four constituencies—reviewed procedures yet again, to fine-tune and clarify. Active liaison with the GFC Campus Law Review Committee was a key element in PACSH's procedural work, since the new Code of Student Behavior now explicitly lists sexual harassment as an offence which may result in expulsion.

sion.

PACSH's membership of eight was doubled this year by adding eight alternate members who assist in hearing cases. Our membership is similar to a Noah's Ark: two men and two women from each of the four constituent groups—graduate students, non-academic staff, undergraduate students, and academic staff. The Chair is elected annually by the regular members. The Chair's "double" (same sex and same association) is then added to the committee, for a grand total of 17 committee members. The Chair for 1985-86 is Anne McLellan, Faculty of Law.

Office of the Vice-President (Academic)

Formal complaints were lodged with the Office of the Vice-President (Academic) in mid-June, having first been brought to the attention of the Chair of the President's Advisory Committee on Sexual Harassment, Dr. Leslie Bella. Soon as the complaints were received in mid-June they were examined according to contractual procedures contained in the Faculty Agreement between the Board of Governors and the Association of Academic Staff at the University of Alberta (Article 12). That examination process is continuing. Until it is completed absolutely no comment can or will be made. Any comment could jeopardize the examination process or the reputations of the accused and complainants.

The President's Advisory Committee on Sexual Harassment was established in October 1982. Two people, a man and a woman, from each student and staff association serve on the committee. Their deliberations are in every respect confidential.

The definition of sexual harassment is that which is subscribed to by the Alberta Commission on Human Rights and the Canadian Association of University Teachers.

Article 12 of the Faculty Agreement allows for the examination of complaints which have been referred to the Vice-President (Academic) in writing. There are various grades of disciplinary action. These include the ultimate penalty of dismissal. □

Selection Committee, Dean of Home Economics

The Nominating Committee is seeking nominations for one faculty member, to be elected by GFC from a Faculty other than Home Economics, to serve on the above Selection Committee.

Those who have suggestions for nominations or who are interested in serving on the committee are asked to contact Mrs. Plaskitt, 2-5 University Hall (432-4715), no later than noon on 9 September.

Art and Design Goes to the Gallery

An exhibition of works by staff of the Department of Art and Design opens at the Edmonton Art Gallery on 14 September and will run till October. On 19 September, at 8 p.m., there will be an official opening and reception—open to all—at which Terry White will represent the University.

Art and Design staff members have each selected for the exhibition examples of what they consider to be most representative of their recent work. Exhibits will include painting, prints, sculpture, drawing, industrial design and visual communication design. Most works have not been exhibited before.

A catalogue will accompany the show—this will be the first time

that the work of Art and Design staff has been brought together in one publication. The catalogue includes 18 color reproductions as well as biographies and notes by art historians in the department. Two thousand copies have been printed and it will be on sale (price \$6) at the Gallery after the official opening. It will also be available by mail from the Department of Art

and Design, and copies are being sent to some 400 institutes in North America which teach art and design.

Two panel discussions will be featured during the exhibition. On Friday, 27 September, and Friday, 4 October, at 7.30 p.m. in the EAG, exhibitors will talk about their work and there will be an open discussion afterwards. □

Get Your Reusable Chemicals Here

The Department of Chemistry has sorted and catalogued more than 1,200 reusable chemicals received from the Ellerslie Disposal Facility. All of the chemicals are in their original containers, many of which are unopened. A computer listing giving information about the manufacturer, grade and quantity of the material will be circulated to departments and individuals who use chemicals within the University. The chemicals will then be distributed free on request, on a first-come-first-served basis. The list of available material will be updated

regularly. To receive a copy of the list or request a chemical, telephone M.A. Armour, Department of Chemistry, 432-5566.

This pilot project has been funded by the federal government; continuation of the project depends upon the number of chemicals which can be recycled and therefore on the cooperation of all users of chemicals. Cost-saving should be experienced by individuals in reduction of chemical costs, and by the University in reduction of disposal costs. □

Talks

Chaplains' Association

18 September, noon. Namibia student Gabriel Uahengo, "The Kassinga Massacre: A Survivor's Story." SUB Theatre.

Chemical Engineering

19 September, 3:30 p.m. Andreas Acrivos, Stanford University, "The Boycott—Sedimentation in Settling Vessels Having Inclined Walls." E-346 Chemical-Mineral Engineering Building.
20 September, 3 p.m. Dr. Acrivos, "The Rheology of Concentrated Suspensions." E-346 Chemical-Mineral Engineering Building.

Botany

26 and 27 September. Canadian Pacific Symposium on "Applications of Biotechnology to Western Canadian Agriculture and Forestry." 432-4587.

16 September, 7:30 p.m. The Canada-India Society and the Edmonton Multicultural Society present "Edmonton Multicultural Youth Extravaganza." 420-6866.
21 September, 8 p.m. "Desperately Seeking Susan" (1985).
22 September, 8 p.m. "The Killing Fields" (1984).

Award Opportunities

University of Alberta Alumni Association 75th Anniversary Scholarship

The University of Alberta Alumni Association has established an annual scholarship in honor of the University's 75th Anniversary.

The scholarship will be in the amount of up to \$1,500.

The scholarship will be presented to a full-time student who has attended the University of Alberta for at least the two previous years. *Criteria:*

1. The student's contribution to campus life and to the University of Alberta community will be a consideration.
2. The applicant should have a satisfactory academic standing and plan to continue studies at the University of Alberta.

Application forms and further information may be obtained from: Alumni Association Office, 430 Athabasca Hall, University of Alberta, Edmonton, Alberta T6G 2E8, or by telephoning 432-3224.

The application deadline date is 20 September 1985.

The scholarship will be presented at the Homecoming Dinner on 5 October 1985.

Grants in Aid of Research on Employee Benefits Issues for Graduate Students

Donor: International Foundation of Employee Benefit Plans. *Field:* Employee benefit issues—health care, retirement or fringe benefit systems. *Value:* \$3,000 (U.S.). *Duration:* 12 months. *Conditions:* Citizens of the United States or Canada as of 1 January 1985. Must have completed a majority of required course work toward the degree program. *Closing date:* No deadline. *Further information and application forms should be requested from:* Dr. Wayne Wendling, Director of Research, International Foundation of Employee Benefit Plans, 18700 West Bluemound Road, P.O. Box 69, Brookfield, Wisconsin 53005.

German Academic Exchange Service Fellowships

Donor: Germany and West Berlin. *Where tenable:* Germany and West Berlin. *Level:* Graduate. *Field:* Any discipline except Pharmacy, Medicine, and Dentistry. *Value:* DM 940 to DM 1,400 per month, roundtrip airfare, tuition and fees. DM 200 given at the beginning of the fellowship for additional expenses and DM 100 for books each semester. *Number:* 16. *Duration:* 10 months. *Conditions:* Canadian citizen with at least a bachelor's degree from a Canadian university or college affiliated with AUCC. A German language proficiency certificate is required. A working knowledge of German required for those studying arts. Others may receive an additional scholarship for language training. *Closing date:* 31 October 1985. *Further information and application forms should be requested from:* Scholarship Administration Services, Association of Universities and Colleges of Canada, 151 Slater Street, Ottawa, Ontario K1P 5N1. Telephone (613) 563-1236.

Positions

The University of Alberta is committed to the principle of equal opportunity in employment and encourages applications from all qualified people.

In accordance with Canadian Immigration requirements, these advertisements are directed to Canadian citizens and permanent residents.

Academic

Director, Boreal Institute for Northern Studies

Applications are invited for the position of Director, Boreal Institute for Northern Studies. Applicants should be recognized active scholars in Arctic or sub-Arctic research. Preference will be given to applicants with extensive northern experience and experience in interdisciplinary programs. Exposure to international programs, and to governmental private enterprise and native groups will be an asset. The Director is expected to spend about half his/her time as leader of a multidisciplinary institute supporting and coordinating northern research and academic programs. The other half of the Director's time is to be spent in a teaching department in the University of Alberta.

Secondment arrangements from another university, government or industry will be considered. The appointment is for a period of up to five years, starting as early in 1986 as possible. Salary: negotiable according to experience.

Applications and names of at least three references should be sent to: Dr. Baha Abu-Laban, Associate Vice-President (Research), 3-3 University Hall, University of Alberta, Edmonton, Alberta, Canada T6G 2J9. Closing date for applications: 30 September 1985.

Administrative/Professional Officer (Forester)

The Department of Forest Science has a position for an individual capable of leading an efficient support group, and functioning as Director of Forestry 301—Spring Field Camp.

Responsibilities include the supervision of clerical and technical support staff; capital and operating budget preparation; and control, student counselling; liaison with service, administrative and other departments; liaison with outside agencies; organization and direction of Forestry 301, the annual five-week field camp for BScF students; participation or various councils and committees; professional and executive assistance to Forest Science Chairman.

We are looking for a competent and dedicated professional to fill this challenging and rewarding position. The ideal candidate will have a BSc in Forestry, or equivalent, and an interest and aptitude for administrative work. The incumbent must enjoy working closely with students and must be

capable of communicating well with individuals at all levels of various organizations. This position requires an individual who is highly organized and exhibits a high level of tact and diplomacy.

Salary range: \$25,907 to \$38,867 per annum.

Please apply by résumé with three letters of reference to: Dr. James Beck, Jr., Chairman, Department of Forest Science, University of Alberta, Edmonton, Alberta T6G 2H1.

Deadline for applications: 20 September 1985.

Assistant Secretary to GFC

The Secretariat, an administrative unit of the President's Office, requires an Assistant Secretary to General Faculties Council.

Responsibilities include liaison with Faculties and senior administrative offices on GFC-related matters, including academic standing matters and course/program changes. The Assistant Secretary drafts minutes for the GFC Executive Committee and Council, revises the GFC Policy Manual and computerized index, researches and prepares agendas and meeting material, maintains the GFC Register of Committees, responds to enquiries related to GFC policies, and provides general assistance as required to the Secretary to GFC.

The position requires a thorough knowledge of the University's policies and system of government, excellent oral and written communication skills, and ability to relate well with others. A university degree is desirable. Knowledge of DECIMATE word processors and the IBM 3178 computer terminal would be an asset.

Salary range: \$25,578 to \$38,370. Applicants should send curriculum vitae and the names of three references to: Mrs. Ellen Solomon, Secretary to GFC, 2-1C University Hall, (432-5430) before 19 September 1985.
